We use the services as email integration to our application for sending emails.

The screenshot displays the SendGrid web interface for 'Sender Authentication / Single Sender Verification'. The page includes a sidebar with navigation options like Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area shows a table of senders with columns for SENDERS, ADDRESS, NICKNAME, VERIFIED, and ACTIONS. A single sender named 'Voila' is listed with the email 'voila.smart.fashion@gmail.com' and a physical address in Chennai. The 'VERIFIED' status is marked with a red 'X', and the 'ACTIONS' column contains a three-dot menu icon. A 'Create New Sender' button is located in the top right corner. The browser's address bar shows 'app.sendgrid.com/settings/sender_auth/senders'. The Windows taskbar at the bottom indicates a temperature of 30°C and the date 10-11-2022.
