IBM CLOUD ACCOUNT: DASHBOARD

The screenshot displays the IBM Cloud Dashboard in a web browser. The browser's address bar shows the URL 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's account, 'Ishwarya B's Account'. The main content area is titled 'Dashboard' and features a 'For you' section with several recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Use Cloudant' (Cloudant is a managed NoSQL document database that offers serverless scaling of throughput, capacity, and storage), 'IBM Watson Internet of Things Platform' (Communicate with connected devices, monitor and analyze data in real time, connect your own IoT apps and add Watson AI to the solution), 'Build and deploy Node.js apps' (Go from zero to production in minutes with your Node.js applications, integrate with Watson and other services, scale your microservices), and 'Architect' (Learn to leverage architecture). Each action card includes a 'Getting started' or 'Recommended' button and a time estimate. Below the 'For you' section, there are three more cards: 'User access' (Manage users), 'News' (All About IBM Storage's Price and Supply Guarantee, IBM Tech Now: November 7, 2022), and 'Planned maintenance' (View all). The bottom of the dashboard shows a Windows taskbar with the search bar, taskbar icons, and system tray information including the date and time (11/9/2022, 3:43 PM).
